

## Access to FECA Chargeback Information

IG auditors, inspectors, and investigators who want access to or copies of FECA chargeback reports should contact their employing agency's office that is responsible for handling FECA claims—not DOL's Office of Workers' Compensation Programs (OWCP).

OWCP Division of Federal Employees' Compensation policy is to send chargeback data only to the designated office of an employing agency that handles that agency's FECA process. Members of the IG community seeking access to FECA chargeback reports for official investigative purposes should request this information from their agency. Your Human Resources Department may be able to assist you.

This policy is intended to help keep data secure and to avoid duplication of effort by OWCP.
