U.S. Attorney's Office, District of Massachusetts

Defendant conspired to obtain over \$452,000 in fraudulent SBA funds

BOSTON – A Florida man was sentenced yesterday in federal court in Boston in connection with his role in conspiring to use stolen identities to fraudulently obtain disaster loans from the Small Business Administration (SBA) and to launder the funds.

Hector Garcia, 52, of Ocala, Fla., was sentenced by U.S. District Court Judge Denise J. Casper to time served and three years of supervised release. Garcia was also ordered to pay \$25,104.33 in restitution to the Small Business Administration. In April 2024, Garcia pleaded guilty to one count of conspiracy to commit wire fraud and three counts of wire fraud.

Garcia conspired with Ramon Cruz, Darwyn Joseph, Edwin Acevedo, and others, to use stolen identity information of United States citizens to apply for SBA Economic Injury Disaster Loans. Garcia used stolen identity information of a United States citizen to open a fraudulent bank account, which was then linked to other fraudulent bank accounts set up to receive the SBA funds. Garcia and his co-conspirators used debit cards associated with those accounts to launder the funds by purchasing iPhones for re-sale. Garcia and other co-conspirators wired a portion of the funds to the Dominican Republic.

Over \$452,000 in SBA funds were fraudulently obtained in connection with the scheme. Approximately \$250,000 of this money was used to purchase iPhones in Massachusetts and New Hampshire.

Cruz and Joseph pleaded guilty and were each sentenced [in August 2023](#) and [October 2023](#), respectively, to two years and one day in prison and three years of supervised release. Acevedo pleaded guilty and was sentenced [in August 2023](#) to 33 months in prison and three years of supervised release.
